

BUILD A LONGER TABLE

When you have more than you need, build a longer table, not a higher fence.

We have and will continue to share our time, talent and resources with those in need and to address inequalities in our community. While fostering a culture of inclusiveness, generosity and service is a start – we strongly believe that businesses have an obligation to leverage their power for positive change. Here are a list of initiatives and organizations that we are proud to support:

[16 Ways Foundation](#) – Black-led
